Students' Society
Meeting Today

Vol. XXXIX., No. 19

Montreal, Wednesday, October 26, 1949

PRICE TWO CENTS

Student Society Will Meet Today

Assembly to Debate Change In Constitution

The first Student Society meeting of the semester will be held at 8 this afternoon in the Union Ballroom. This meeting is being held in compliance with the Constitution of the Students Society.

The meeting, for which a quorum of 300 is required, will be under the chairmanship of Student Society president Colin McCallum.

An amendment to the constitution, to be presented today, provides for partial students to be members of the Society if they take two courses at the University. The present requirement is they must take at least three courses. A two-thirds vote is required for passage of any amendment.

The agenda for the meeting is as follows: (a) reading of minutes; (b) business arising out of minutes; (c) communications; (d) business of executive; (e) reports of committees; (f) new business, and (g) notice of motions.

Cushing's "Manual of Parliamentary Practice," extracts of which are published in the Handbook, is the official authority on procedure for all Student Society meetings.

The Constitution of the Students Society provides that a meeting "shall be called about a month after the commencement of each term to consider reports and to handle any business of the student body," as well as to "serve as a welcome for incoming students."

Although the Students Society can amend its own Constitution, no amendment comes into effect until it is approved by the University.

Among the reports to be presented will be that by Bob Gill, last year's President of the Student Society. His report will concern the International Students Service.

Lord Wavell to Speak At Memorial Assembly

Field Marshal Lord Wavell, British statesman and soldier, will address the fourth annual War Memorial Assembly at Macdonald College. The event is held in commemoration of college men and women who served in both World Wars of whom 74 gave their lives.

The ceremony, under the chairmanship of Chief Justice O. S. Tyndale, will be held on Wednesday evening, November 23 in the Macdonald College assembly hall.

Lord Wavell will be introduced by Dr. F. Cyril James, and Dr. W. H. Brittain will thank the speaker.

NOTICE

The McGill Historical Society will meet in the library of the United Theological College, 3508 University street, on Thursday and not at the Union Ballroom as was previously announced.

'We Hate Toronto'—Scientific Conclusion

By MILTON WINSTON

From a survey of opinions across North America a group of scientists came to a definite conclusion. It appears that 89% people per square yard in Canada, and 97.62 persons per square inch in the United States state that they "hate Toronto." There seems to be no logical empirical evidence for this, but as one eager young student put it, "Did you ever arrive in Toronto on a Sunday?"

Thus with such scientific fact behind them, the McGill Radio Workshop plans to present "We Hate Toronto" as their initial radio show. The auditions will be held tonight, Oct. 26 at 8.15 p.m., in the studios of station CKAC located at 980 St. Catherine street.

Auditions
The president of the Workshop, Irwin Brodie, has asked all students interested in radio work, even those who came down to the last rehearsal, to attend. All students being cast in the play will be notified after the audition.

The play "We Hate Toronto" was written by Lister Sinclair and appeared over Stage 48. The story is about an ambitious young man who is trying to earn some money. Everyone advises him to go any

It Could Only Happen To a Queens Student

Kingslon. — (CUP) — This story, which is told of a Queen's student who visited Varsity for the Queens-Toronto week-end, is sworn to be true — or so say Queen's Journal staffers.

The Queen's student was registered at the Royal York Hotel in Toronto and was making his way through the lobby en route to his room, when a totally unfamiliar inebriate threw his arms around the said student and shrieked, "Don't miss the party in 729 — it's the best in the hotel."

The student was dumbfounded. His room was number 729.

New Members In EIC Now Number 160

"In the first two days of EIC Week over 160 new members joined the Engineering Institute of Canada," Bob Fullerton, Chairman of the EUS Professional Committee reported last night.

"This does not include those who have joined at Dawson College, but if the response at Dawson is as enthusiastic as it has been in town, this figure should be increased considerably," he added.

EIC members have set up two desks in the lobby of the Engineering Building and student volunteers are manning these desks to answer any questions regarding the EIC and to sign on new members.

Past issues of the Engineering Journal are exhibited at these desks "so that prospective members may see the technical and non-technical information provided by this publication." A subscription to the Engineering Journal is included in the membership fee.

Those joining EIC at the present time become members from November 1949, until January 1951: as the membership year runs from January to January, and the extra few months' membership is free.

"Shortly after joining, new members will receive a membership card and a weekly notice announcing programs for both Junior and Senior Sections. All EIC members have the privilege of attending any of these meetings."

"The first social event following EIC Week is a dance to be held at the Ritz Carleton Hotel. This will be an informal and a special rate of \$2.00 per couple has been arranged for student members. The Junior Section of the EIC is sponsoring this event which is their Fifth Annual Dance."

Subscriptions to the Engineering Journal commence with the January issue.

THE LOUNGE in the new wing of Royal Victoria College which will be officially opened today. This modern addition to the women's residence provides an additional 163 rooms. Trying out the comfortable lounge are, left to right: Vivian Munroe, Sheila McQuitty, Eloise Hall, Olga Pawlak and Joann Marble. Daily Photo — Graetz.

New R.V.C. East Wing Opens; Co-ed Accommodation Is 301

Five-story Addition Has 163 Rooms

By PEGGY KNOWLES

The new East Wing of the Royal Victoria College will be opened today. The addition of this modern 163 room residence is the latest of the many enlargements and developments which have taken place since the college was built.

R.V.C. is now a venerable fifty years of age. The erection of the original building was financed by the late Lord Strathcona in memory of the famous British queen for whom it is named and whose statue graces its outside steps. Since its opening there have been a long series of changes, alterations, and modernizations, necessitated by the growth in numbers of McGill's women students.

West Wing
In 1931 the West Wing was built. More recently, many improvements have been made in order to keep pace with the increasing demands made on existing facilities. These include the installment of a cafeteria in the basement for non-resident students, and the modernization of the dining room for those living in residence. The kitchen and food storage quarters have also been re-built.

The infirmary has been enlarged to a total capacity of twelve beds plus two single isolation rooms. A doctor and nurse are in attendance. Offices have now been provided for the Women's Union in the basement of R.V.C., and additional locker space has also been made available.

With the opening of the new wing, the college is no longer operating the outside residences which were temporarily to house overflow co-eds. These were Strathcona Hall, MacLennan Hall, Donalds House and Anna House. This means that although there are 163 more rooms, there is an actual overall increase of only 30 rooms. The total accommodation is now 301.

Single Rooms
To quote Dr. Roscoe, Dean of Women and Warden of R.V.C., the ultra-modern five-storey wing has been designed as a "good background for work as well as play." The majority of the students' rooms are single, there being only six double rooms in the entire building. This, as everyone knows, is more conducive to studying.

The walls are finished in attractive tones of yellow, pink or green. Comfortable matching or contrasting armchairs are also provided. A feature of the rooms is the built-in furniture in tones of basic beige. There is plenty of cupboard space and sliding doors eliminate some of the noise common to most residences. Windows are fitted with Venetian blinds, and lighting is provided by means of lamps over bed, desk and vanity. When drapes, bed-spreads, rugs, pictures and the inevitable knick-knacks are added the result is truly charming.

Each floor is provided with a kitchenette where bedtime snacks may be prepared. There is also a laundry with adequate washing and ironing facilities on each floor.

Buzzers
A feature is the new buzzer system which has just been installed throughout R.V.C. Each room can now be signalled directly from the front hall switchboard and eliminated (Continued on Page 4.)

Dr. Roscoe Presides At RVC Opening

Dr. Muriel V. Roscoe, the Warden of the Royal Victoria College, and the resident staff, will be at home tomorrow on the occasion of the opening of the new wing of the college. In the afternoon, from four to seven o'clock, they are entertaining the members of the board of governors and the senate and professors and associate professors of the Faculty of Arts and Science and their wives. In the evening, from eight to ten o'clock, the guests will be the members of the Alumnae Society and their husbands.

Camera Club Holds First Meeting Tonight

The Camera Club will meet tonight in the Union Ballroom at 8.30 p.m. for its first meeting of the current season. In addition to enrolling members and outlining plans for the year there will be a talk and demonstration on the art of making a contact print, for the benefit of beginners.

All members of the club will also be taken down to the basement to see the club darkroom, and a darkroom committee will be elected. The opportunities for more experienced members of the club to join the Daily staff as photographers will also be outlined by the Daily photo Editor.

McGill, U.B.C. Parking Violators Face Fines

Local Regulations To Be Enforced More Rigidly

The regulation forbidding students to park their cars on the campus is to be more rigidly enforced and stiffer penalties for violations have been passed by the Senate and the Board of Governors. S. H. Dobell, comptroller and executive assistant to the principal, has announced.

The limited parking space made it necessary some years ago to allow only members of the administrative and academic staff who have applied for and have been granted permission to park their cars on the campus. The rule has not been strictly enforced but effective October 31 it will be—and fines will be levied against violators.

First infraction of the regulation will bring a warning but subsequent violations will bring fines of two, five, 10 and 15 dollars—the amount increasing with the number of offences.

A committee gave the parking problem considerable study. Mr. Dobell declared. Reports from various universities in Canada and the U.S. indicated that most universities charged for parking where space was available and where space was not available fines were levied against students who parked their cars on the campus.

The committee had not found it possible to rent a special parking space for students within reasonable distance of the campus, Mr. Dobell said. He expressed regret that the stiffer regulations and penalties had to be imposed but said the parking situation had become critical.

Faculty Tea For Students On Saturday

Plans for the first Arts and Science professors' tea to be held on Saturday from 4-6 p.m. in Union have been completed, Mike Peers, of the undergraduate society tea committee, announced last night.

"This is an excellent opportunity for students to get to know their professors and discuss their courses with them. Frequently large universities are criticized because there is little or no opportunity for the undergraduates and professors to get together; unfortunately this is very often the case. Such a situation is all the more deplorable in view of the fact that the great universities of America have men of exceptional ability on their faculties," Peers said.

"As a result the idea of 'Professors' Teas' was conceived to further understanding and appreciation of both points-of-view. The students also have the opportunity to meet members of the faculty whom they would not contact otherwise."

Faculty, Students Subject to UBC Assessment

Vancouver. — (CUP) — Students and faculty parking in non-allocated parking places at the University of British Columbia will be subject to administration fines of up to \$5. Because of ample parking space now available on campus, Administration feels that no cars, faculty or students, should be found in wrong or prohibited areas.

Faculty cars have been supplied with stickers indicating that they are eligible to park in faculty space.

Parking areas have been allotted to both faculty and students. Neither will be allowed to overstep these boundaries.

In addition to administration fines, provincial police fines will be imposed on students who infract provincial road regulations in Endowment Lands.

Full statement from committee on buildings and grounds is as follows:

During the past few years traffic and parking conditions on the campus have caused a considerable problem. Building construction has made the situation even more difficult.

In order to avoid these and further difficulties as well as to ensure clear areas for our fire prevention program, the Committee on Buildings and Grounds considers the following regulations necessary and a benefit to Faculty and student body alike:

(a) Suitable parking areas have been designated for staff and Faculty members, and the student body. These areas are clearly marked and must be used as

(Continued on Page 4.)

A & S Undergrads to Elect Four Representatives Today

Debating News, Tours, Patron Announced

Dr. F. Cyril James has accepted the position of honorary president of the Debating Union Society, it was announced last night. Also released were details of proposed debating tours in Canada and the United States.

Dr. James, in his letter to the Society, told the executive that he would accept the honorary presidency with pleasure, John Ballon, president of the Society, told The Daily last night.

Ballon also released details for tours which McGill debaters will be making in the near future. The first event taking place in a trip to Kingston, at Queen's University's invitation, this coming week-end.

The Eastern Invitation Tournament will draw McGill debaters to Vermont University in Burlington on Nov. 28-29. Twelve students and faculty advisors will go from McGill to attend this tournament. At this tournament last year, Ballon said, the McGill debaters were undefeated, although no official winners of the tournament are ever announced.

A proposed tour in December will include universities in the New York area, among them City College of New York, New York University, Columbia, Bernard, and possibly Princeton. The proposed tour is to take place Dec. 9-11.

Roger Ouimet To Speak on Labour Views

Roger Ouimet K.C., local lawyer, and an authority on labour problems, will be guest speaker at a meeting in the Union Ballroom, on Thursday at 5.00 p.m. His subject: "Mr. Duplessis and Quebec Labour — A Liberal View."

Mr. Ouimet, a native Montrealer, is the son of the late Paul G. Ouimet, chief law translator in the House of Commons, Ottawa. Mr. Ouimet read law in the office of the Right Honourable Louis St. Laurent, Prime Minister of Canada, and has lectured at Laval University in Quebec. Called to the Bar in 1930. He held the position of Crown Attorney for the district of Montreal from 1940-1944, and was called to King's counsel in 1944.

Mr. Ouimet ran as Liberal candidate in the district of St. Henri in the last provincial election but lost out in the Duplessis landslide.

Among the many organizations of which he is a member are the Canadian Bar Association, Montreal Reform Club, Cercle Universitaire, the Canadian Legion. He is also a life member of the Officers Mess of the Fusiliers Mount-Royal.

Experimenting With Isotopes For Western

London, Ont. — (CUP) — Experimental work with radioactive isotopes will begin at the University of Western Ontario early next year, Dr. H. A. DeLuca, professor of biochemistry has announced.

At the same time a course in the handling of the radioactive material will be given to post-graduate students.

Dr. DeLuca, who spent three months this summer at Chalk River, Canada's chief source of radioactive materials, said that the University will start experimental isotope tracer work. As soon as the laboratory is prepared, the materials will be procured.

The National Research Council, which operates the pile at Chalk River, is anxious to co-operate with universities in training personnel to work with such materials. When improperly handled radioactive substances are potentially dangerous health hazards.

Used to Find Tumors
Radioactive isotopes, widely used in research, make it possible to

Sherbrooke's Misery Realized By McGill

By BOB PERRY
Sherbrooke, Oct. 25. — McGill football fans are not alone in their misery.

A brief period of glory for six short-skirted, be-sweated cheerleaderettes of the Sherbrooke Athletics football squad ended last Saturday.

Their bare-legged career collapsed while they were bringing sweetness and light into the hearts of Sherbrooke fans watching a powerful Montreal Navy team wallop the locals 24-0.

City officials stepped in at half time of Saturday's game, pointed a finger at the old by-law that bans the wearing of shorts or short skirts in public places and told the girls to cover up . . . or else.

The girls deciding that discretion is the better part of valor, donned coats and went on with the cheering. But somehow or other the afternoon, from then on, was pretty dull.

New Buildings Are Occupied; More Planned

Old McGill is soon to be transformed: new buildings, departments in new places, even an "extended library. All these changes have taken place or are being planned.

Following the demolition of the double house on University street, the old building on the corner of Sherbrooke and University streets was today vacated by the Conservatorium of Music, in preparation for its immediate demolition. A new Physical Sciences Centre is also to replace 3448 University street, where the McGill Graduates' Society and the McGill Placement Service is now situated. These two organizations are soon to be moved to 3574 University street. Until a few weeks ago the latter was the office of the Student Christian Movement.

OTHER MOVES
Leaving the Arts Building are the Department of Fine Arts, which will soon be found in Angus House together with the Faculty of Music. As of yesterday, the Department of Psychology is situated at McConnell Hall at 3544 Peel street.

In the field of science, work on the Eaton Electronical Laboratory will be begun shortly. A more tricky problem is presented by the proposed library extensions. It appears that difficulty is being encountered in obtaining a suitable balance between the purely functional and the more ambitious plan to combine function with the aesthetic demands.

Table Reservations Available for Dance

Table reservations for the ACS Gym on Friday night and gets Ball are obtainable starting today at no additional cost for those who already have tickets for the dance. It was announced last night by the ball committee.

The committee also said they have planned to set up some 100 tables in the Currie Gym, site of the formal. Urging all groups to contact Dick Messier, president of the Arts and Science Undergraduate Society, either today or tomorrow to reserve entire tables, the announcement said these tables could not be held much longer.

Other items listed by the announcement were:

"With a view in mind to outdoor all past ACS Balls, the decorations committee under Vance Ward and George Hunter have proceeded with plans to erect two false ceilings over the dance floor and table area and these are to be lit solely by the multi-colored spotlights. Plans are also underway to have a door man and entrance canopy in order to give the Ball the air of exclusiveness it so richly deserves."

"Tickets for the Ball will be on sale for only three days, and although the student response has been moderate, it has picked up considerably in the last two days. It is felt by the committee that there will be a rush on tickets today, Thursday and Friday."

"The Ball is being held in the

Messier Lists Activities of Society

Today students in the Faculty of Arts and Science go to the polls to elect their representatives for positions in the Arts and Science Undergraduates Society not already filled by acclamation.

The offices to be contested are those of first year president; second year president and vice-president; and third year president. Those running for office are: first year president — Marvin Gameroff; Jack Lesser and Daniel Kingston; second year vice-president, Willa Birks and Leticia Artola; third year president, Art Friedman, Niels Nielsen and Perry Black.

Balloting commences at 9 a.m. and continues until 4 p.m. Poll locations are as follows:

For men — in the Common Room in the Arts Building, and in the Union.

For women — in the Common Room in the Arts Building.

Dick Messier, president of the Arts and Science Undergraduates Society, said yesterday, "All students in the Faculty are eligible to vote and should exercise their prerogative in order to have competent representation. The programme drawn up for the year is an active one, and in order for it to be successful, there must be enthusiastic participation by all members. This is particularly applicable to the officers chosen to sit on the executive."

"All students, who are regular undergraduates, in the Faculty of Arts and Science, and have paid their Students' Society fee, are members of this, the largest Undergraduates organization on the campus."

One of the primary functions of the Society is carried out by the Educational Committee, of which Kieth Eddy is the president. The members of this committee are responsible for the suggestion of courses, in co-operation with the faculty, and the organization of "Gen Nites." They act as the liaison between members of the faculty and the students. In the latter connection the committee sponsors "Professors' Teas" in the hope of "producing better understanding and appreciation of both points-of-view."

The positions already filled, by acclamation, are those of treasurer of first year, Aarum Cohen; secretary and treasurer of second year, Jacqueline Beaudoin and Keith Drummond respectively; third year vice-president, Mary Loo Reoch; secretary, Marg Root, treasurer, Jim Robb.

All fourth year representatives have been elected by acclamation. They are: Eugene Cartwright, president (Continued on Page 4.)

THE DAWSON RAID

The editor of The Dawson Weekly appears to be annoyed that we referred to some of the Dawson raiders as being "ants at a picnic." He suggests that an editorial in The Daily viewed the raid of the Freshman Trial as "the childish nastiness of Dawson students."

In fairness to both the Dawson students and to The Daily, it should be pointed out that no such words were used. And no such thought was intended. As we said, though the editor of The Dawson Weekly omitted to mention this, we thought the editorial "a gentle protest against the singing of obscene songs."

The editorial was mainly a commendation of the work done by the executive of the Freshman Reception Committee, Dave Floyer, Boris Gardavsky, and Cynthia Plant and their many assistants.

As we have said, and here again the editor of The Dawson Weekly does not mention this,

"the most ardent former Dawsonites now at McGill took exception to this (the singing of obscene songs). Having been at Dawson we realize there is a fine spirit there and we think anyone who hasn't had the experience of Dawson has missed a great deal."

We looked upon the raid as a spirited affair that livened up Dawson's annex — McGill — but as happens at so many of these affairs a few unthinking students spoiled the event with extremes. And we think the singing of obscene songs in the presence of co-eds is extreme. Plenty of spirit can be shown without them.

The song objected to has now been repeated at a dance at McGill this past week-end. We think it would be a good idea to object now so that the practice is not carried on to the Junior Prom and then to Convocation.

The editor of The Dawson Weekly has put himself in the position of defending something which surely he does not condone. Perhaps his second sentence adequately explains the reason for his editorial: "I did not witness the event." C. K.

As Others See It

VETERANS EXCLUDED

The decision of the Rhodes Scholarship Committee to make restrictions applicable to all students this year will undoubtedly come as a surprise to some student veterans.

The fact that scholarships such as those sponsored by the Beaver Club Trust are now available to veterans was probably partially responsible for the new ruling. The committee has apparently decided to return to normality and to allow the younger students to take over once more a field from which they have been well-nigh excluded since the end of the war.

One unfortunate result may be the lowered quality of applicants for the award. It is understandable that the younger students may have less of the leadership qualities and experience demonstrated by many student veterans.

In any event, this change in regulations seems quite in keeping with the trend of the times. Many student veterans have complained of a gradual stiffening in the interpretation of regulations by the Department of Veterans Affairs. The favored position which the veteran has in many instances enjoyed since his discharge is gradually receding into the middle distance with the memory of the war itself.

However, a few years of military service hardly merit a lifetime of special concessions. The Canadian veteran can have few complaints to make concerning his post-discharge treatment. The Canadian Government's Veterans' Rehabilitation Act has been one of the best in the world.

—The Sheaf, Saskatchewan.

CAPE CHIDLEY on the coast of Labrador is typical of the terrain over which Dr. Kranck and his crew cruised in a motor launch mapping and collecting specimens.

Geologist Explores Labrador

A large collection of very ancient rocks is currently engaging the time of Dr. E. H. Kranck, professor of Geology, who spent the summer cruising up and down the Labrador coast in a motor launch mapping, and collecting specimens. Most of this area, between Hamilton Inlet and Hopedale, has never been mapped and very little was known about the rock structures.

Dr. Kranck and his crew, consisting of George Riley, post-grad. student in Geology here at McGill, Walter Gibb, from Mt. Allison U., and Noel Fothergill, owner and skipper of the party's ship, the "Merry Gale," left Montreal around the middle of June on a cruise that was to take them on a round trip of about 4,000 miles before they dropped anchor again in Montreal on Sept. 17th.

The purpose of the trip was partly a mapping of the rock ground along the coast, and partly a petrological study of the actual rocks. Petrology, Dr. Kranck's specialty, is defined as the study of the character and origin of rocks of all kinds.

In an interview last spring just before he left, Dr. Kranck stated that the rocks along the Labrador Coast were splendidly exposed and that therefore it was possible to establish the age relationship of the different formations. "Of particular importance," he said, "is that this

makes possible a correlation of coastal formations with the rich iron ore bodies in Inland Labrador. Dr. Kranck is no newcomer to the barren land along Canada's Atlantic coast. He has explored the area several times before and in addition to several scientific papers, he has written a book on the subject called, "Motor and Hammer Along the Coast of Labrador."

When interviewed yesterday afternoon, Dr. Kranck was busily engaged in sorting out some of the rocks that he brought back with him. "When I get these sorted out and classified," he said, "I will be able to start work on a description of the rocks we found up there." He said that it would probably take him over a year to finish the description.

"The rocks along the coast up there are some of the oldest known," he said. "They are classified generally as Archean, which means that they are well over 540 million years old at the very least. They are mostly granites and gneisses, but we do find the occasional limestone band, though very much altered in form."

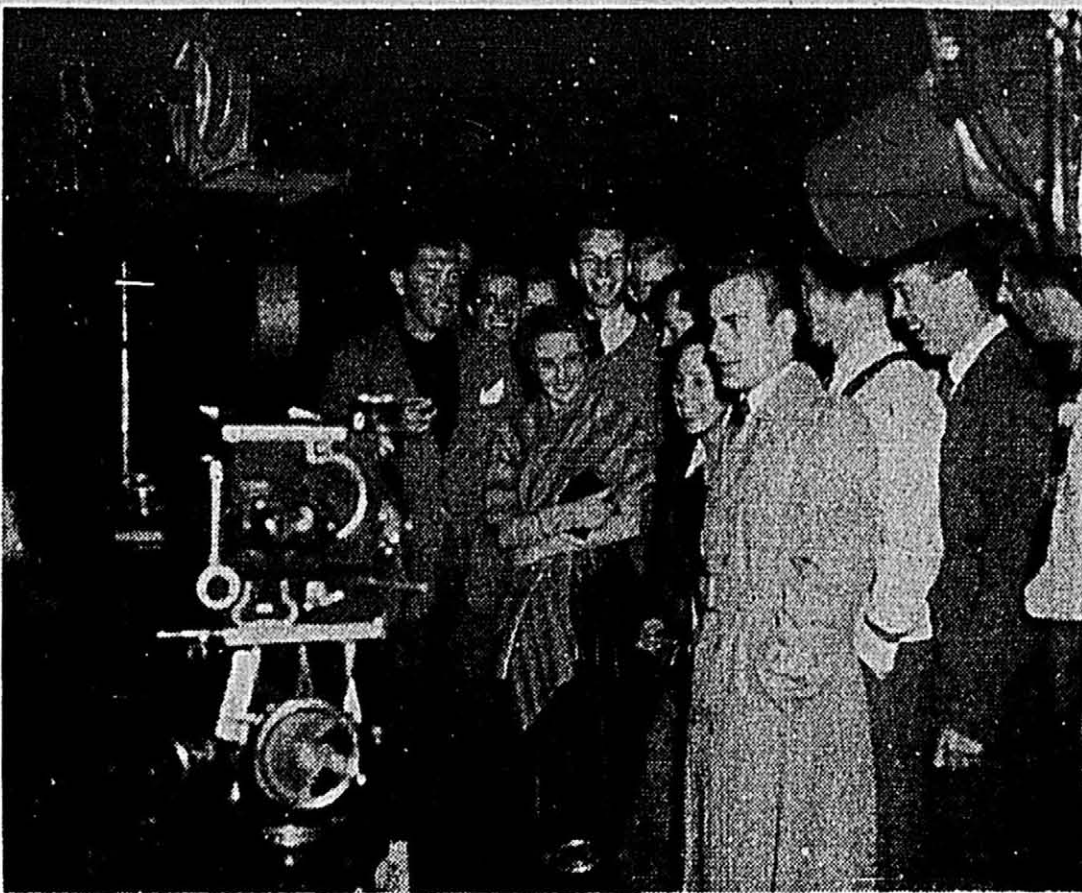

He pointed out a piece of bright orange rock, which seemed to be composed of shiny orange crystals. "This is very rare," he said. "It was originally limestone, but it was altered by heat and pressure until it reached the form you see it in

now." He pointed to another kind of rock imbedded in the limestone and said that it was hematite. "Hematite is one of the most abundant ore minerals of iron."

Describing the trip itself, Dr. Kranck said that none of the 'gales' they had were very 'merry.' They had a good deal of bad weather and the seas were often rough. In spite of the occasional rough weather, Dr. Kranck said that he enjoyed the trip. "A summer like that is always pleasant," he said. "Why, we even got in a little fishing!"

In doing the actual mapping, Dr. Kranck and his party used both their motor launch, "The Merry Gale," and some canoes. Dr. Kranck described the coastline as very irregular and indented, with many small islands. "We used to send the canoes down into the inlets where it was more or less sheltered, and use the motor launch a little further out as it could stand the buffeting. All in all, we must have covered several hundred miles in this fashion," he said.

Many parts of the Labrador Coast are less well known than the Arctic regions farther north, which have been much more thoroughly explored. Labrador, in light of the recent discoveries of vast bodies of iron ore in the interior, is coming more and more into the public eye and the importance of geological survey is of inestimable value.

SUSAN DOUGLAS, the leading lady of Selkirk productions' forthcoming film "Forbidden Journey," is shown here in the company of McGill students when scenes for this picture were recently shot on the McGill Campus. The film also contains many other scenes of well-known places in Montreal.

McGill Scene of New Film 'Forbidden Journey'

Hope that a film about McGill would be produced soon was expressed here last week by Cecil Malden and Richard Jarvis, co-producers of the Canadian film, "Forbidden Journey." This picture is the first produced by the new company, Selkirk Productions, and is the second full-length, English film produced in Canada.

At present the plans for the McGill film are only tentative, pending release of the present Selkirk production. This picture, the directors believe, should be "neither in the rah-rah style of the American college film nor in the Oxford and Cambridge style, but in key with the respect and tradition of the University in the world today."

Malden said, "Writing for the films is a sadly neglected occupation in Canada. It is important for Canadian writers to turn their attention to thinking visually and putting their thoughts on paper. It is for this reason that my co-director and I are interested in knowing what the students at McGill, and other universities, are writing."

Jarvis pointed out that some of the finest radio writers in the world, today, are in Canada, and mentioned the "Stage 49" and "Stage 50" productions. However, he said that most of the good writers in Canada are forgetting the rapidly developing Canadian Film Industry.

They agreed upon the point that some writers are made, but that film-writers, especially, must be born with the ability to fit words, appropriately, to the movement in a picture. Malden considers that, within ten years, the Canadian writer for the films can look forward to a secure, well-paid future.

It was pointed out that some of the foremost screen personalities of the day have been discovered in university drama societies and writers' clubs.

When asked what contribution they thought the National Film Board was making, Jarvis replied, "The Board is training all types of technicians, and, I think, it is producing the best-trained people in the world today. This is particularly so in Ottawa because there they learn every phase of film production whereas in Hollywood there is so much specialization that no technician could produce any part of a picture without a supporting staff. The training of the National Film Board contributes in no small degree to the future of the trainee. Our chief cameraman, Roger Racine of Montreal, and I had our training there so I can speak with authority."

"In the near future," said Malden, "a number of private companies plan to continue opening up the film industry in Canada. I think these companies have considerable hope of success because almost every country in the world, including Switzerland, has developed the industry with benefit to the people."

At this point they spoke about their current production, "Forbidden Journey," for which some shots were filmed outside the Medical Building last week. They described it as, "a typical Canadian film, which moves rapidly and preserves an atmosphere of excitement, tension, and suspense throughout."

"The story," they explained, "is about a stowaway—a quiet idealist. The male lead is played by Jan Rubes, a young European operatic star, who sings two Czech songs and "Here and Now," the latter of which was written for the film. The hero of the picture carries on the work begun by his father during World War II.

"We want to portray the fact that stowaways are not always tough characters and also convey the idea that the quiet, unassuming people of the world must come into their own. The members of our

cast are of the latter type, and we hope to escape the unfortunate emphasis on toughness and brutality seen in some similar pictures."

"Susan Douglas, the leading lady, with whom some McGill students recently had their picture taken, is a sweet petite blonde. Jan Rubes' role is that of a kind of Gregory Peck, spoken with a whisper." Malden added. The film is to "present a new approach to the tough drama and introduce the theme of, 'the meek attempting to inherit the earth.'"

"Our purpose is not to preach, but to attempt to set up a Canadian tradition, retaining some of the British polish; yet without the vulgarity of the former and some of the slowness of the latter," they explained.

Malden and Jarvis in working for a Canadian tradition in the films, believe that Canadians could well profit by the philosophy expressed by Rubes in his line:

"How do you think I can work for my country and leave it?"

Enrolment at Varsity Lower This Session

Toronto—(CUP)—The total enrolment at the University of Toronto this year has dropped from last year's 15,684 to 13,772, President Smith announced recently. This is a drop of 1,912 students, but Toronto campus is still overcrowded due to the closing down of the university's Ajax Division.

Most Canadian Universities have reported decreases in their enrolment this year except Montreal's Sir George Williams College. This downward trend in the enrolment at the Universities has been pronounced since the peak of the post-war period. The chief reason for the decline during the past two years is the definite drop in the number of student veterans attending the universities.

FEATURES MEETING

All features staff and students interested in joining the features staff are requested to attend a general meeting in features room of McGill Daily, 8.30 p.m., October 27, 1949.

Seven Colleges in Inter Track, Field Games at Stadium

One of the largest meets in the history of Eastern Intermediate Intercollegiate Track and Field competition will be held at Molson Stadium beginning at 2 o'clock this afternoon. Strong entries have been received from six of the thirteen colleges invited.

Trying to overthrow the champion McGill squad will be teams from Carleton, Bishops, Sir George Williams, Dawson and Macdonald. Biggest threat to the Redmen's three year hold on the Inter Track crown is expected to be Mac. Since the Meet is not a C.I.A.U. event, Macdonald will use Livingstone, hurdler on the McGill Senior Track team.

Around Livingstone the St. Annes boys have built a potential winning squad with many members of last year's crew. The Green and Gold "Aggies" placed second in the '48 Inter event. Returning for the Mac men are Flannigan, McEwan and Fraser in the sprints, Cole and Foulkes in the field events.

Dawson's entry will also boast a member of the Senior Red Track team in Coughlan, McGill quarter miler in the Intercollegiate Meet at Western. The St. John's boys are particularly strong in the middle distance runs. Besides Coughlan they have Collier, winner of both the 440 and 880 in the Intramural Meet. Back with the Red and Blue is Rudd, second in last year's hundred yard dash and winner of the Intramural sprint and broad jump.

Little is known about the entry of the other three visiting colleges. Carleton has produced some very good track men in the past, notably Rankin, winner in the middle distance runs last year. The Ottawa crew came fourth in that Meet. Bishops fifth in the '48 event on a token entry is sending along a much stronger team, while the Georgians entering a full squad loom as the dark horse.

For McGill the entry list will

be: 100 and 220 yard dashes—Kline and Laffoly; 440 yards, Delory and Serbinoff; 880 yards, Serbinoff and Gilmour; mile, Gilmour, Harrington and Donnell; 2 miles, Jardine and Ryde; high hurdles, Sliwka and Errington; low hurdles, Chomay and Ramsay; pole vault, Sliwka and Ramsay; high jump, Laffoly and Taylor; broad jump, Headly and Edwards; javelin, Bourdon and Millar; discus, Sliwka and Coffee; shot put, Whitman, Keleher and Coffee.

Obeck Sees Tough Contest With Queens

"We're sure Queens will do a better job next week. They have a good team and with Al Lenard back in the line-up they will be tough to beat." Those were the words of Vic Obeck last night as he got ready to send the football squad through another heavy drill in preparation for another game with the Gaels next Saturday in Kingston.

Obeck is still slightly displeased with his team's performance in their last tilt with the Tricolor, but he thinks he knows where the boys made their mistakes and this week's drill will be concentrated to eliminating them. Beside keeping up with the usual work extra effort will be placed on sharpening up the pass defence.

Though the team looked good on this front last week, their sharpness may have been the result of poor Queen's passing rather than their own improvement. With Lenard, a proven tosser back in the Queen's line-up, the team will really have to be up to scratch in this department on Saturday.

Emphasis will also be placed on line play. The line played a little below par on Saturday and Obeck intends to get it back into razor-fine shape for the remaining games. The McGill mentor is cooking up a few surprises for his fellow intercollegiate coaches. They have had the Redmen fairly well scouted up until now, and Obeck figures it is about time he crossed them up. To confuse the opposing masterminds he'll come up with a number of new plays. They will be used in the second half of the schedule, which means that they will make their appearance Saturday.

The line-up for the game hasn't been decided on yet. Obeck may stand pat but just in case he changes his mind he has a few players who have played some fine ball for the Intermediates this year practicing with the senior team. These include ends Bill Nicholls and Don Wilson, centre Dennis Ellerbeck and backs, John Rodgers, Ray Deschiels and Dawson Tilley. The team is completely free from injuries. Haskell Blauer's hand has mended and he is back in perfect shape. Ken Wagner, the only McGill player to be injured in the last game, has completely recovered. Wagner suffered a severe black eye.—M.A.B.

The Daily regrets the sweep and lead story on yesterday's Sports page. This handling of the story was not approved by the senior members of the sports department.

WEIGHT LIFTING
There will be a beginners class in body-building, as well as a weight lifting team practice, in the BWF room today at 5.15 p.m.

Tall, Hoopsters Lacking Boss Cuts Hopefuls

Do the tall men attending McGill University have an aversion to basketball, or is there nobody answering this description to be found on the entire campus? This question among other things, was puzzling coach Moe Abramowitz as he scanned the 40 or more hopefuls who have turned out for berths on the 40-50 edition of the basketball Redmen.

Of the five holdovers from last season's Senior Redmen, who have turned out again this year, not one seems to be of over six feet tall, this adding to the despair of the puzzled mentor. The returnees include Lou Endman, Myer Bloom, Eli Godel, Lefty Berger and Smiley Wilson. Continuing to drill his proteges in the scrimmage type of workout, coach Abramowitz commenced the tedious process of weeding out those players who are not of intercollegiate calibre. As a result of last night's scrimmages, about a dozen men have already been released from the team, and it is expected that these cuts will continue until there are between 20 and 30 hoopsters remaining on the squad. Those who are still expected to turn out to practices will find their names posted on the notice board located at the south-west corner of the gym.

Students' Society Meeting

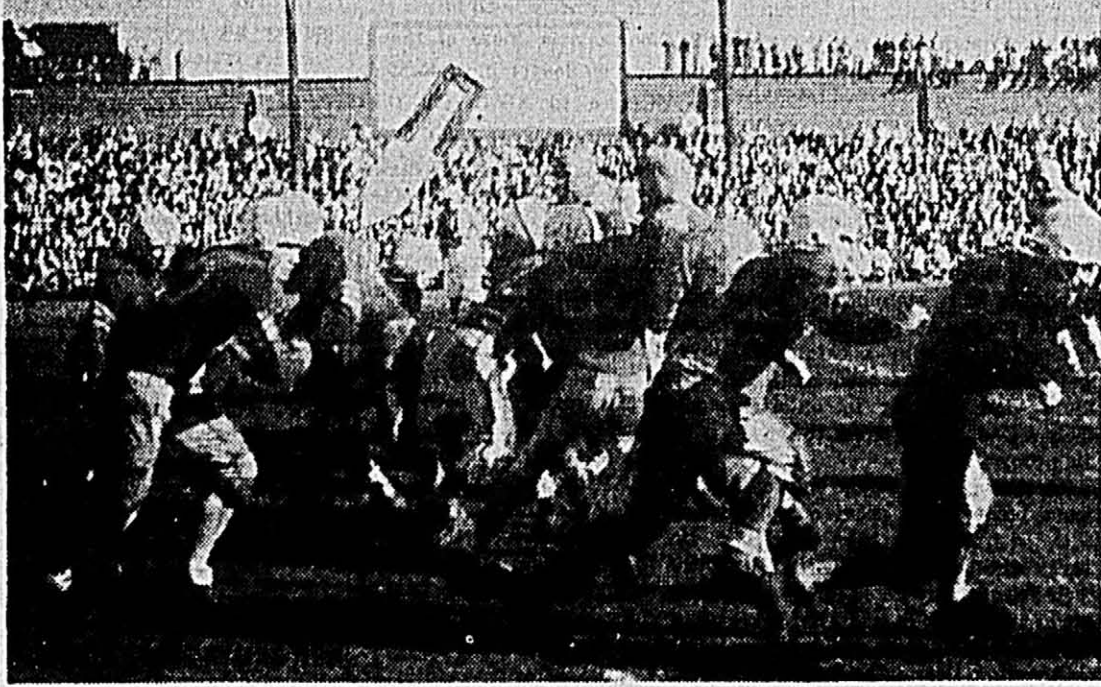

5:00 p.m. Wednesday, October 26, 1949 in the McGill Union Ballroom

AGENDA:
Minutes of Meeting held on February 23, 1949.

Business arising out of the Minutes:
Amendment to Article IV of Students' Society Constitution
Amendment to Article V of McGill Union Constitution

Reports of Committees
International Students' Service
New Business
As introduced from the floor.

'T' IN ACTION

This Daily picture shows exactly how McGill's T-formation operates. The ball has just been snapped to Harry Irving (arrow), McGill quarter. He is spinning and within a second after the picture was taken handed the ball to Dave Hackett (left arrow). The man in the extreme left foreground, George

Valois, is going out to block for him, as are the two men in the right foreground. The one on the right is Jim Mitchener, the other is unidentified. McGill guard, Moe Malone (37) is putting a block on his Queen's opposite.

SPORTS MENU

INTERMEDIATE TRACK
The following are to report at the track for the Intermediate Meet starting at 2.00 p.m. today.

Men entered in the following events should be ready by 2.00 p.m.: Discus, pole vault, high hurdles, 100 yard dash.

100 yds.—Kline, Laffoly.
220 yds.—Kline, Laffoly.
440 yds.—Delory, Serbinoff.
880 yds.—Serbinoff, Gilmour.
Mile—Gilmour, Harrington.
2 Miles—Jardine, Hyde.
High Hurdles—Sliwka, Harrington.

Low Hurdles—Chomay, Ramsay.
Pole Vault—Sliwka, Ramsay.
High Jump—Laffoly, Taylor.
Broad Jump—Headley, Edwards.
Javeline—Bourdon, Millar.
Discus—Sliwka, Coffee.
Shot Put—Whitman, Keliher and Coffee.

BASKEBALL MANAGERS
The basketball teams need managers and assistant managers for Senior and Intermediate squads. Report to Johnny Johnstone at any of the practices as soon as possible. Practices are Monday, Tuesday and Thursday, 5.30 to 7.30.

TOUCH FOOTBALL SCHEDULE
Wed. Oct. 26—5.00 p.m., Arch. vs. Grads, Middle Field.
Wed. Oct. 26—1.00 p.m., Phys. Ed. 4 vs. Comm. 1 & 2, Stadium.
SOFTBALL SCHEDULE
Wed. Oct. 26—1.00 p.m., Phys. Ed. vs. Law 2 & 3.

SWIMMING
Members of the swimming team who have been practicing at the Y.M.C.A. pool are requested to attend a meeting at the pool at 5 p.m. today.

WATER POLO
Prospects who have been turning out to practices please consult notice board in Arts Building as to who is to turn out to further practices.

Dawson 6, McGill 0
The Dawson soccer crew defeated the McGill eleven six goals to none. The points were evenly divided among three St. John's men, with Chavez, George Nicolaidis and Mu-chado each notching two markers.

Phys Eds Beat Dents in Touch Football Tilt

A fast Phys. Ed. 3 and 4 team defeated Dent 1 and 2, 10-0 yesterday in intramural touch football game. Although the Phys. Ed. team outplayed the Dents the latter were contenders until Burch scored the clincher for Phys. Ed. with only a minute to go.

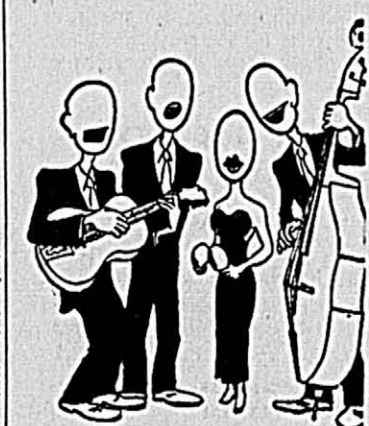

About half way through the first quarter Phys. Ed. took possession of the ball on the center stripe and they rolled to two straight first downs on a series of passes by Burch. It took them only five plays to score, Thacker taking a pass from Burch on the

three yard stripe and sprinting from there to paydirt for a touchdown.

The second quarter featured loose ball handling and each team threatened to score on interceptions. Play was dull until the last minute of the fourth quarter when Flewelling passed to Fraser who took it on the Dent, ten for Phys. Ed. Burch went over from there to make the score ten to nothing.

Valois and Robillard Among Top Scorers As Half Way Mark in Schedule Reached

With McGill safely esconced in second place after two straight victories, coach Obeck is pointing the squad to win number three.

Big George Valois, was the golden boy in last Saturday's game as he blasted his way through and around the Queens line for two hundred and three yards gained rushing. This was two-thirds of the yards gained total piled up by the big Red Machine, which came to three hundred and twenty-one yards.

In addition to this George carried on two payoff plays, to bring his touchdown total to three. This gives him fifteen points, two better than speedy Jack Parry of Western who is in second slot in the scoring parade.

Little Rocky Robillard is one of the big men in the parade, having a total of eleven points and ranking fourth. He gathered all his points via his talented toe with one field goal, five converts and three singles.

Auditors' Report to the Council

We have examined the books and accounts of the Students' Executive Council of McGill University for the year ended 30th June, 1949. In this connection we have examined vouchers pertaining to all disbursements and verified the revenue with the exception of revenue from students' activities.

We report that, in our opinion, the above balance sheet and accompanying statements are properly drawn up so as to exhibit a true and correct view of the state of the affairs of the Council as at 30th June, 1949, and the results of the operations for the year ended on that date, according to the best of our information and the explanations given to us and as shown by the books of the Council.

(Signed) McDONALD, CURRIE & CO.,

New RVC-p. 1

ates much of the former difficulty in tracing students. An automatic elevator is another time and energy saver much appreciated by the resident co-eds.

Lovely settings for entertainment and recreation are to be found on the ground floor. The lounge, an exceptionally large and spacious room, is beautifully furnished in tones of blue, grey, and maroon, providing an appropriate background for fun and relaxation. Four "nooks," each with a chesterfield and armchair, have been built for those girls wishing to entertain their friends "away from the mad-ding crowd."

For those who enjoy music, a sound-proof music room complete with victrola has been devised. Those who wish to play cards with their friends may do so in the card room where tables and chairs are kept set up. A guest powder room on the first floor is an added feature.

The co-eds' sentiments regarding their new quarters are almost unanimous in praise. Said one, "It's wonderful — everything is so convenient." Another added, "For once I've got lots of cupboard space."

A criticism heard was to the effect that the lack of communication to other parts of the college except through the ground floor (and one can't very well go dashing through the halls there in a housecoat) made

visiting one's friends a time-consuming effort.

Expressions from some of the girls who formerly lived in the outside houses were those of thanks that they no longer have to walk the distance to R.V.C. for their meals. "Everything is right here," said one of the girls. "You couldn't ask for more," commented another, "especially with this," pointing to the automatic washing machine which has been installed. And the summing up remark was, "We just love it here."

Nor has the staff been overlooked. Special rooms on each floor have been set aside for the staff members, and they also have been provided with their own dining room, and lounge.

Dr. Roscoe disclosed that more plans for the future are still being made, including a separate gymnasium and swimming pool to be attached to the east side of the college.

And so "the old order changeth, yielding place to new," and R.V.C. keeps pace with the march of time.

A&S Undergrads-p. 1

ident; Joan Maher, vice-president; Betty Brook, secretary; and Mike Cain, treasurer.

No nominations were received for the positions of vice-president and secretary of the first year; as a result these officers will have to be appointed in the near future.

McGill, UBC-p. 1

Indicated.
(b) The Provincial Police will enforce all parking regulations.
(c) A system of warnings and internal fines has been instituted by the Committee and approved by the Faculty Council.
(d) Parking regulations will apply to all members of the teaching and administrative staff as well as students.

Experimenting-p. 1

find out what happens to an element when it is used in a compound. For example, it is found that radioactive elements are picked up by brain tumors and isolated. A Geiger counter will then locate the tumor definitely so that it can be removed.

Allan Memorial Needs Students for Spotting

Toronto. — (CUP) — Disaster spotters are required by the Allan Memorial Institute of Psychiatry of Montreal. Dr. Seely of the Dept. of Psychiatry of Toronto, has issued an appeal for students, particularly in their third or fourth year, to act as spotters in situations of acute disaster, in major Canadian centres, particularly in University communities.

The duties of the spotters will be to notify the field survey team who will send a psychologist and sociologist to the scene, and keep track of the disaster until the team arrives. The spotter is to act only as a first contact.

The Institute is studying "the management of the individual in situations of acute or community disaster."

COMING EVENTS

OCT. 26.

RED & WHITE REVUE

Meeting of all departments heads and their assistants. Details of Budget will be discussed. Attendance is therefore necessary. Wednesday, October 26th in the Music Room of the Union at 8 p.m.

ARTS & SCIENCE DEBATING SOCIETY

There will be a meeting of all Third Year Arts & Science students interested in debating on Wednesday, October 26, at 1 p.m. in the Union Ballroom. The following are requested to be present: Art Leznoff, Henry Nevard, Pat Carson, David Crombie, Robert Paulette, Lawrence Diner, Maurice Leznoff, John Antcliffe, Oscar Resnitz, Mel Rothman, Milton Winston, David Wood, Jean Potter, Leo Stern, Hazel O'Brien and Harold Reiter. The purpose of this meeting is to arrange future debates for any Third Year Arts or Science student interested in debating.

MCGILL LIBERAL CLUB

A meeting to discuss the Quebec Labour situation and to formulate a resolution on Liberal policy will be held at 1 p.m., Wednesday, October 26th in the New Room of the Union. The discussion will be opened by brief addresses on the problem by Paul MacDonald, Law III, and Lou Lemieux, Law I. All students interested in labour problems will be welcome.

MCGILL L.P.P. CLUB

The regular meeting of the Club will be held in the New Room of the Union.

CHORAL SOCIETY

Regular Wednesday practice will take place today in Divinity Hall at 5 p.m. However, all freshmen who wish to, may attend the Students' Society Meeting at the Union.

ENGINEERING UNDERGRADUATE SOCIETY

On Wednesday, October 26th, in Room 33 of the Engineering Building another program in the series of technical movies will be shown between 1.00 and 2.00 p.m. The films "Trouble Underground" and "Hydraulics" will be presented through the courtesy of Bell Telephone Co. and Associated Screen News respectively.

CANTERBURY CLUB

The Very Reverend Kenneth Evans, Dean of Christ Church Cathedral, will speak to the Canterbury Club today (Wednesday), at one o'clock on the third floor of Divinity Hall. The topic of his address will be "The Christian Idea of God." All interested students are invited to attend. There is no admission charge.

MCGILL RADIO WORKSHOP

There will be auditions for the script "We Hate Toronto," today, October 26th, in station CKAC at 8.15 p.m. Everyone is requested to attend, even if you attended the first audition.

LIBERAL CLUB

A meeting will be held today at 1 p.m. in the New Room. Paul MacDonald and L. Lemieux will lead a discussion on Canadian Labour and Liberal attitudes to Trade Unions. The subject is of special interest since M. Roger Oulmet will speak on Quebec labour on Thursday.

OCT. 27.

MCGILL PSYCHOLOGY CLUB

The first meeting will take the form of a Gen night and all undergraduates interested in joining are asked to attend. The speakers will be Dr. Hebb... Post Graduate Psychology at McGill, Dr. Bindra... Experimental Psychology. Mr. H. Dorkin... Clinical Psychologist, Verdun Protestant Hospital. The time is set at Thursday, October 27th at 8 p.m. and refreshments will be served.

PARKING RESTRICTIONS

Students are reminded that because of severe limitations of space, parking on University grounds is restricted to the cars belonging to the academic and administrative staffs who have applied for and received permission. The University regrets the necessity of enforcing the regulation that no students may park on the campus, and requests that students refrain from violations. These regulations will be effective as from 31st October, 1949.
